

Name: Justin Schlatter

Class of works: I am writing in support of Class #2 (DVD Region Coding):
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not
available in Region 1 DVD format and access to which is prevented by
technological measures.

Summary:

Disc name: Family Guy Series DVD

Although the official U.S. release of the Family Guy series DVD will not be
ready until May of 2003, I thought I could watch the U.K. version. Since it is
region encoded I was unable to watch the DVD I special ordered from Europe.
Even though I paid almost \$50, I couldn't play it on either my component DVD
player or my computer DVD player.
